**The Coleshill Health & Fordbridge projects in Solihull saw construction of two brand new schools to replace the old Colesheath school.**

The projects involved the creation of two separate sites including full day nursery, school nursery and other community facilities.

Bailey Streetscene supplied and installed a street furniture package suited to public spaces which included cycle storage, recycling and traffic control products.

### Roles & Responsibilities:

- Initial design consultation
- Bespoke design offering alternatives to specified products
- Accurate costing detail and helped find cost effective solutions
- Project management – worked alongside Morgan Sindall site team schedules
- Design / adaptation of existing product to comply with the project requirements
