Moss Rose is a 6,355 capacity stadium and is home to Macclesfield Town Football Club. It was built in 1891, making it one of the oldest grounds in the Football League.

In order to kickstart their 2019/20 season, Bailey Streetscene have supplied 2 bespoke sports dugouts and crowd barriers to the Silkmen. After all, much of our workforce have been raised in and around Macclesfield, therefore we wanted to support our local team by offering our expertise in canopy and shelter construction.

Our Sports Dugouts are ideal for protecting athletes from the elements, whilst still offering a full and clear panoramic view of the action.

As a standard they're manufactured in 4020x2020x1910mm units that can comfortably seat 17 people, although easily adapted to suit the size and style you need, with options for decals and a huge range of powdercoated colours to match your club brand.

Manufactured in the UK, the robust design acts against vandalism and weathering.

Hot dipped galvanised to BS EN ISO 1461:2009, 4mm Clear PET cladding.

Responsibilities

- Site liaison and logistic
- Bespoke design built to fit existing foundations
- Customised RAL & Decals
- Working within tight deadline
