

STREETSCENE PRODUCTS

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

Adapt

The Adapt Modular Concrete Collection

is an exclusive range of integrated concrete seating and planter elements designed to unlock limitless possibilities in urban furniture composition and spatial arrangement.

With a variety of modular shapes and size options, Adapt offers a low-maintenance, highly durable alternative to traditional street furniture. Its substantial mass not only ensures stability but can also contribute to building and pedestrian protection, allowing placement to serve both aesthetic and functional purposes.

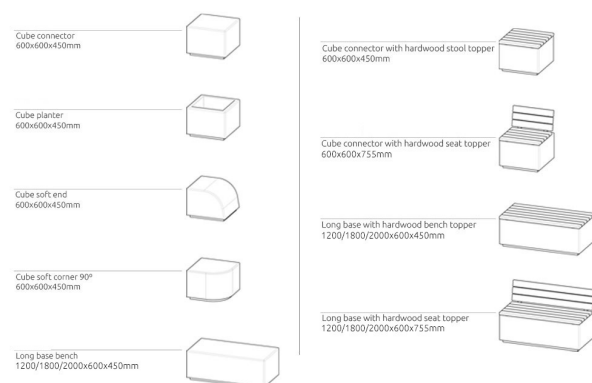

A wide palette of colours and material finishes for the concrete substrate offers a further layer of customisation, enabling each installation to harmonise with its unique architectural and environmental context.

Complementing this versatility, a curated selection of timbers, fixtures, and accessories allows landscape designers to create tailored solutions that reimagine and repurpose urban spaces for a diverse range of everyday uses.

Adapt

strikes the perfect balance between creative flexibility and robust, practical performance—empowering designers to transform public spaces with confidence and style.

Tombola Bench

A monolithic design featuring large hardwood beams resting on steel columns with optional integrated lighting. The lengthy Hardwood beams form an attractive and consistent bench, that when combined with underlighting becomes a focal point in urban areas.

The extremely durable timbers are specially sourced and can be manufactured to any length required.

The industrial steel supports can be powder coated in a range of RAL colours to complement your scheme.

The bench can be secured in place using surface or below surface fixings.

Also available is the Tombola Table featuring the same design principles. When combined with the table it creates a unified communal dining and social space.

Materials:

Frame: Steel

Bench Top: Hardwood

Greengate Lounger

The Greengate Lounger is part of the Greengate range of timber and steel products. Manufactured from 5mm mild steel and then hot dipped galvanised to BS EN ISO 1461:2009. available in hardwood or softwood timber slats. Surface mounted. Longevity of the lifespan of the timbers is bolstered by the timber slats being treated with an external stain, whilst this lounger can be powder coated to most BS or RAL colours.

The Greengate range is great for all your landscape designing requirements, the lounger is perfect for public parks and private roof terraces.

Podium Bench

The Podium Bench creates a focal point whether for casual meetings or events. Available in a variety of layouts from L-shaped corner units, long runs or amphitheatres with the option to include a backboard for added privacy and wind reduction.

If you're looking for a centrepiece for social spaces our team can design and manufacture a timber podium arrangement to your exact requirements.

The frame is manufactured in galvanised steel, then clad in either softwood (such as redwood) or hardwood (Sapele) with additional fixtures such as handrails and skate deterrents.

The large units can be pre-assembled in sections and delivered to site and then easily joined together.

Cubik

Collection of modular cube-shaped elements that can be joined together, composed of folded steel sheet bases, to which seats are mechanically attached.

The seats are available in several versions: steel, hardwood or thermo-treated pine and HPL.

A planter in steel and a table with an HPL top complete the collection.

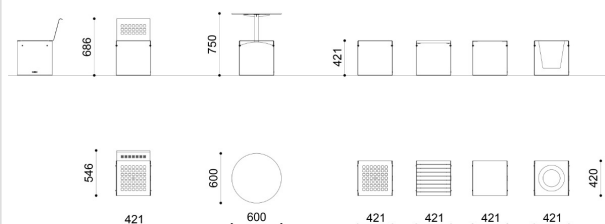

Each base is prepared for lateral attachment with the other elements of the CUBIK collection.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

Prepared with holes for ground fixing through mechanical dowels (not included) for outdoor installation or in simple support for indoor installation.

Fola Seat

The Fola Seat is a bench designed with two steel sheet supports and a seat made of either hardwood or thermo-treated pine slats. The structure is supported by a tubular steel frame and features folded steel sheet ribs. This versatile bench offers a variety of options, including the choice of a backrest made of a wooden plank and steel sheet supports. Users can opt for a configuration with or without a backrest, and there are additional choices for small steel tables or individual steel armrests.

The durability of Fola is ensured by the galvanisation of all metal parts and a coating with thermosetting polyester powder. For added strength and resilience, all fixings are crafted from AISI304 stainless steel. The design also incorporates prepared holes for ground fixing using mechanical dowels (not included). This feature facilitates stable installation, making the Fola Seat suitable for outdoor use. With its robust construction and customisable features, the Fola Seat provides a versatile and long-lasting seating solution.

Casteo Seat

The Casteo Seat is a versatile bench that comes in different configurations, with or without a backrest and armrests. It features a sturdy design with two tubular steel supports and a folded steel sheet frame for the seat. The seat can be equipped with optional slats made of hardwood, thermo-treated pine, or WPC, while the backrest and armrests are constructed from folded steel.

For durability and protection against the elements, all metal components, including supports, seat frame, backrest, and armrests, undergo a galvanisation process. Additionally, a coating of thermosetting polyester powder is applied to enhance both the aesthetic appeal and resilience of the bench.

To ensure longevity and resistance to corrosion, all fasteners utilised in the bench are made of AISI304 stainless steel. The bench is designed for secure installation with prepared holes for ground fixing through included threaded bars. This feature makes the Casteo Seat suitable for both indoor and outdoor use, providing stability and preventing potential theft or vandalism.

2X1 Parklet

Collection of parklet modules consisting of an HPC (High Performance Concrete) platform with or without a rectangular tubular barrier with five round steels, or with two round steels and a rectangular planter.

A trapezoid shaped HPL top is fixed to the upper part of the barrier.

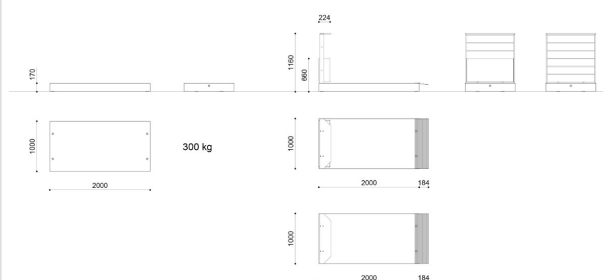

On the opposite side of the barrier, two interlocking aluminium extrusions compensate for the difference of the pavement from a minimum of 100 mm to a maximum of 245 mm.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

The self-supporting platform is equipped with feet adjustable from above with hexagonal insert sleeve.

L: 2000mm x W: 1000mm x H: 170mm

Arrowhead

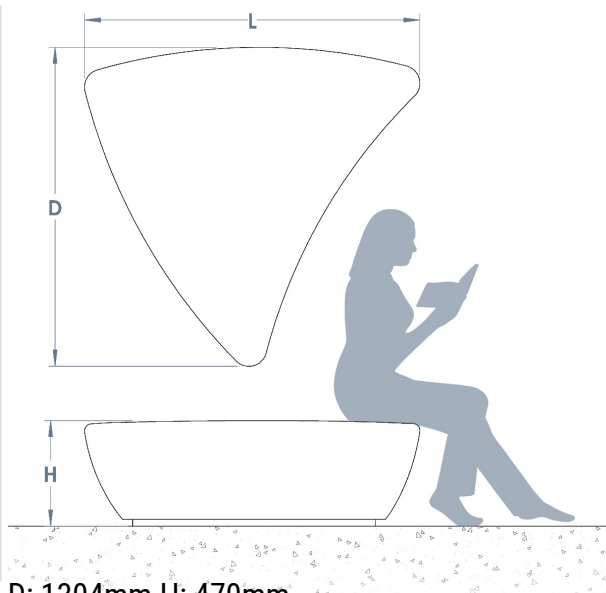

Arrowhead is an exclusive range of unified concrete seating and planter elements that merge to form an infinite array of possibilities within urban furniture composition and arrangement. In short, these look great, are resilient, and are an extremely low-maintenance outdoor furniture alternative.

The curvaceous monolith arrowhead shape forms the basis of this low-maintenance and resilient alternative to traditional street furniture. Their weight and mass also allow their placement to be considered in terms of building pedestrian protection from vehicles.

A broad palette of colours and material finishes are available as well as a selection of timbers, fixtures and other accessories culminate in ensuring the Arrowhead range offers landscape designers a flexible and expressive toolkit to reshape and re-purpose urban space for a variety of practical everyday uses. The perfect blend of creative freedom and solid everyday function.

Brunswick Bench

Perfect for parks, schools colleges, and similar outdoor spaces, the Brunswick Bench is manufactured from mild steel and then hot dipped galvanised to BS EN ISO 1461:2009 standard.

A surface mounted bench that is clad in timber slats and treated with an external stain to increase the lifespan of the timbers, this teams perfectly with the Brunswick Picnic Set to give any outdoor space a smart, uniform look whilst being extremely fit-for-purpose.

Woking Seat

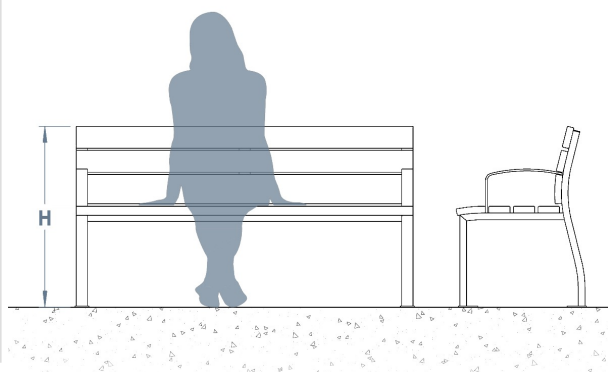

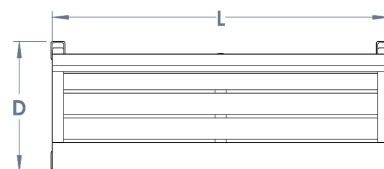

Ask yourself what you want from your outdoor seating: We'd guess that stylish, versatile and durable would be amongst your first answers. That's exactly what the Woking Seat is. It's absolutely ideal for busy public spaces such as town centres, schools and colleges, and is also available in a double-sided version too.

With a frame that is galvanised and powder coated to any RAL colour of your choice, and timber slats in hardwood or softwood, this is a great addition to any area in which it is placed. It is also available with armrests, and with fixing bolts concealed within the legs for ground fixing, what you have here is a well-balanced, modern seat.

The Woking Seat is also available as a double sided bench.

Dimensions of the Double Bench: L: 3000mm x D: 1280mm x H: 894mm

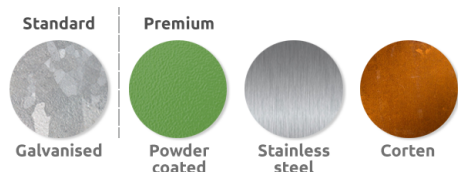

L: 1750mm x D: 450mm x H: 800mm

Bradford Bench

A surface mounted or root fixed bench, the Bradford Bench is a sturdy, hard wearing seating solution that is suitable for any outdoor areas, especially busy town centres. The frame is manufactured from grade 304 stainless steel with a brushed satin finish, whilst the base consists of treated timber slats. The combination of the two materials creates a stylish and modern seat.

Available with grade 316 stainless steel for more aggressive environments such as industrial or coastal areas.

Bradford Stainless Steel Litter Bin

Part of our Bradford range, the stainless steel litter bin's main body comes in grade 304 or 316 stainless steel for more aggressive environments such as industrial or coastal areas. It's massively popular in densely populated areas such as outdoor shops and shopping centres. It comes with a brushed satin finish, 90 Litre galvanised liner, and an anti-tamper security lock for added protection and peace of mind.

It also features a pivoting lid allowing the easy removal of the liner, and a keyless integrated ashtray with easy empty tray built into the post, making it a highly sought-after solution to your outdoor litter disposal problems.

Deacon Litter Bin

Due to its look and also its toughness and durability, the Deacon Litter Bin really is an ideal solution for waste problems in areas close to nature, as well as schools and inner cities where timber and bright colours are utilised to improve the environment. The Deacon Litter bin features a heavy timber frame, galvanised and powder coated steel door with customisable laser cut lettering and an inner galvanised steel frame to hold waste sacks.

It's available in either soft or hardwood and has a powder coating available in a range of colours on request. Customisable lettering gives the likes of schools, playgrounds and public parks the opportunity to personalise their outdoor space too, whilst it comes either surface mounted or root fixed.

Ascot Litter Bin

The Ascot is a smart, practical litter solution. Manufactured from 3CR12 stainless steel then powder coated and clad in hard wearing timbers as standard, but also available with powder coated steel doors or charred timber option for a sleek, stylish finish. The standard unit has a capacity of 110 litres complete with galvanised steel liner. The Ascot Triple Litter Bin has a 50L capacity for each individual bin.

Standard Dimensions:

Single Bin: L: 650mm x D: 400mm x H: 1110mm x Capacity: 110L
Triple Bin: L: 1050mm x D: 300mm x H: 890mm Capacity: 50L x 3

Customisable options include:

- Ashtray
- Lettering or Custom Decals
- Powder Coating in any RAL colour
- Timber or steel door
- Galvanised Steel Liner

Advantages of this design include:

- Tri-key lock to ensure security
- Modern and stylish design
- Modular with single, double or triple unit
- Decals and lettering for separation of waste type
- Surface mounted for a clean and easy finish

Litter Bin is ideal for:

- Retail Parks & Shopping Centres
- Universities
- Student Accommodation
- Corporate spaces

L: 650mm x D: 400mm x H: 1110mm x Capacity: 110L

FGP Litter Bin

A contemporary-yet-classic looking bin that will blend in nicely with many outdoor environments, the FGP Litter Bin is a handsome element that complements other pieces in the FGP collection.

The cast aluminium parts have a durable powder coated finish, and the bin has a cast aluminium rim and rotational-moulded base that are connected with vertical timber slats in between. Servicing is made easy through the cast aluminium top being hinged so that it swings up, whilst the attractive timber slats are available in the same species as the bench.

Easylift Premium Cycle Rack

The highest selling two tier system in Europe!

Easylift Premium is a highly convenient gas-assisted two level bicycle parking system. The lifting system ensures that a bicycle can be parked on the top level effortlessly. The end of the light-weight aluminium upper track rests on the ground so that the bicycle can simply be wheeled onto it and hardly has to be lifted at all. The two levels mean that the parking capacity is doubled!

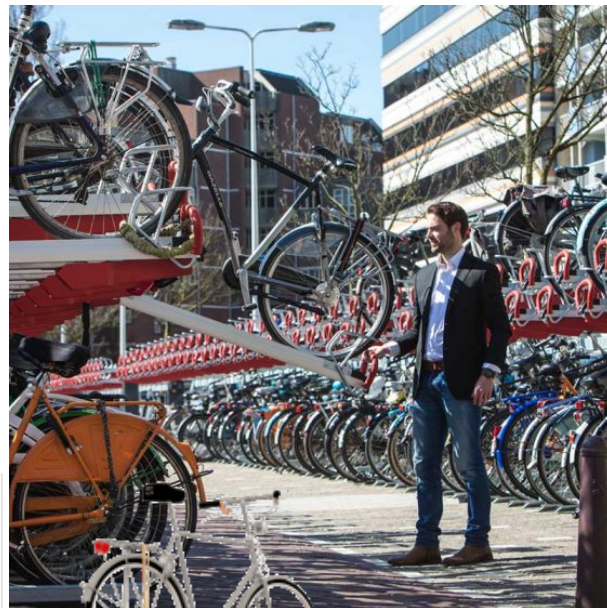

Versatile - Can be configured to meet the number of spaces you require

Compliant - Gas assisted system that requires little effort from the cyclist

Secure - Secure at the front and/or rear of the bicycle with chain or D-lock

Easy to use - Designed to be easy to use and operate

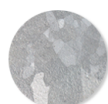

Standard sizes starting from L: 1025mm x D: 1900mm x H: 1700mm

Stainless Sheffield Cycle Stand Surface Mounted

Named after the Steel City, simplicity is the key here, as our massively popular surface mounted Sheffield Cycle Stand is manufactured from grade 304 stainless steel or 316 stainless steel for more aggressive environments such as industrial or coastal areas, both with a brushed satin finish as standard or a bright polished finish.

The design allows this cycle stand to be used in any urban and rural landscape. It's a really cost-effective way to cater for your cycle users.

Sheffield Cycle Stand With Mid-rail

Named after the Steel City you'd be expecting a tough, durable cycle stand, and the root fixed Sheffield Cycle Stand with Mid-rail doesn't disappoint. It's one of the most popular cycle stands at Bailey Streetscene, as its simple design allows it to be used in both urban and rural landscapes.

Manufactured from mild steel and the hot dipped galvanised as standard, it's also available manufactured from grade 304 or 316 stainless steel for more aggressive environments such as industrial or coastal areas. It comes complete with a steel mid-rail which serves multiple purposes including adding an extra locking point for your bicycle.

Additional Options: Root fixed as standard with a surface mounted option available. Powder coating to most BS or RAL colours available. Bright polished finish or brushed satin finish. A rubber bung can be added for use as a door guard.

Multiplicity Picnic Table

If you're looking for a flexible, durable and contemporary picnic table then the Multiplicity Picnic Table could literally be right up your street. Or park, or pub, or school etc€!..

User-responsive, this is absolutely perfect for multi-use as it's designed for eating, working and social gathering. The generous picnic table echoes the sculptural convex form of the bench frame, with variations in angle and thickness to provide stability. The table is substantial in scale, with generous timber boards that offer a familiar softness to the touch.

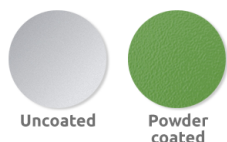

The frame of the table is dimensioned to allow the bench to slide efficiently underneath, making this a modern-looking, stylish picnic table.

Inspira Protect Planter

Inspira Protect Planters has been tested to IWA 14-1 standards to withstand impact from both 1.5 and 2.5 tonne vehicles.

Inspira Protect features an impact resistant fully-welded steel support frame. Sub frame and cladding panels are all hot-dip galvanised to BS EN 1461:2009 and powder coated to site specification. The planter sits at top a slab foundation of 150mm. The modular design can be scaled up where needed. The 2.5 Tonne version features a higher axel impact point with a height of 600mm.

Inspira Linear

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Linear is a collection of straight walls and angled corners, designed for geometrically-shaped installations

(squares, rectangles, parallelograms, triangles etc.)

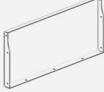

Linear can also function as a low-cost alternative to complex curved schemes, using its variety of angled connectors to

match design intent.

Manufactured to suit customer requirements

Inspira Form

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Form includes all the rectilinear components of Linear with the addition of curved wall and corner sections, allowing more organically shaped installations (circles, lozenges, waves etc.)

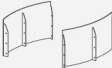

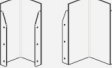

Components of Form have a thicker wall to allow its slim profile and minimal visual impact at the top edge.

As standard Inspira Form does not have a return edge. If required please contact us to discuss.Â

Inspira Bespoke

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Bailey Streetscene have completed a number of bespoke projects using the Inspira installation methodology.

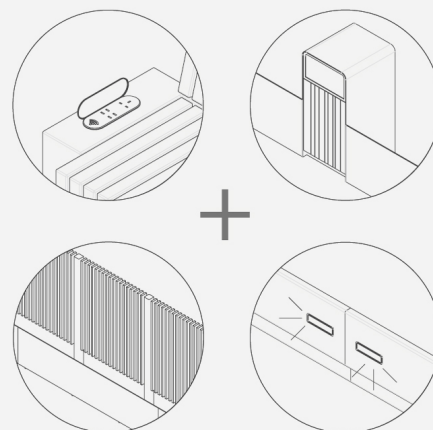

These projects form a basis of knowledge and experience, from which to continually improve upon our bespoke offering.

Manufactured to suit customer requirements

Materials, Finishes & Options

Adapt

The Adapt Modular Concrete Collection

is an exclusive range of integrated concrete seating and planter elements designed to unlock limitless possibilities in urban furniture composition and spatial arrangement.

With a variety of modular shapes and size options, Adapt offers a low-maintenance, highly durable alternative to traditional street furniture. Its substantial mass not only ensures stability but can also contribute to building and pedestrian protection, allowing placement to serve both aesthetic and functional purposes.

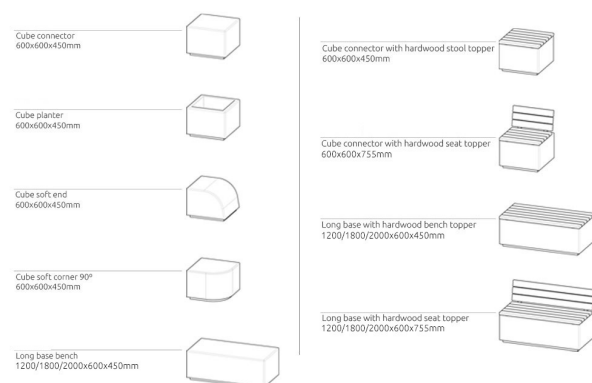

A wide palette of colours and material finishes for the concrete substrate offers a further layer of customisation, enabling each installation to harmonise with its unique architectural and environmental context.

Complementing this versatility, a curated selection of timbers, fixtures, and accessories allows landscape designers to create tailored solutions that reimagine and repurpose urban spaces for a diverse range of everyday uses.

Adapt

strikes the perfect balance between creative flexibility and robust, practical performance—empowering designers to transform public spaces with confidence and style.

Cube Planter

Cube Planters are a popular choice for exterior landscapes. They are a tough, resilient, stylish and low cost.

Cube Planters are lock formed together and made with drainage holes, therefore if you wish to use these indoors please ask for the planters to be sealed.

There are many standard sizes available, however for a little extra we can also make bespoke sizes.

Our Cube planters can also be powder coated in any RAL colour or provided in corten steel or stainless steel.

Sheffield Double Sided Scooter Rack

Scooters are proving an increasingly popular and fun method of transport for both children and the not-so-young alike, and ours is absolutely perfect for schools, public parks or any outdoor space. The Sheffield Double Sided Scooter Rack is surface mounted and manufactured from mild steel and then hot dipped galvanised as standard, making it ideal thanks to its toughness and durability.

With a capacity that can cater for up to 20 scooters, the Sheffield Double Sided Scooter Rack has a powder coating in a range of RAL colours available and is a great option for outdoor spaces that are frequented by scooter users.

Eastbrook Shelter

The Eastbrook is an adaptable shelter range available in 2 standard sizes;
The Eastbrook Junior features a 2.6m cantilevered barrel roof tilted to the rear with 4m floor space.

The Eastbrook Senior has a larger barrel roof offering 3.2m of shelter with 5m floor space.

Each style is extendable lengthways in 4m or 5m units to meet requirements.

The steel frame is hot dip galvanised with optional powder coating, and clad in 5mm PET clear sheeting.

Customisable options include:

- Junior and Senior versions
- Extendable lengthways
- Bespoke sizes available on request
- Powder coating in any RAL colour

Advantages of this design include:

- Modern design
- Open space beneath with only 2 posts
- Water run-off to the rear and sides
- Low maintenance

Shelter is ideal for:

- Cycle parking
- Retail Parks
- Shopping Centres
- Schools
- Health Care

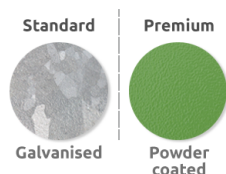

All our Canopies, Shelters and Structures are manufactured to the legal standard BS EN 1090.

Stainless Steel Sheffield Cycle Stand

Simplicity is the key here, as our massively popular root fixed Stainless Steel Sheffield Cycle Stand's basic design allows it to be used in any urban and rural landscape. It's a really cost-effective way to cater for your cycle users. It comes manufactured from grade 304 stainless steel or 316 stainless steel for more aggressive environments such as industrial or coastal areas.

Named after the Steel City, this cycle stand features a brushed satin finish as standard or has the option of a bright polish finish; it's also root fixed as standard or base plated for surface fixing.

Semi Vertical Cycle Rack

A superb space-saver, the Semi Vertical Cycle Rack is a simple space saving product ideal for high-density population areas such as stations, offices, shopping centres, car parks, universities and high streets - and can be used to help demonstrate compliance with BREEAM.

The racks are designed for a long tough life of heavy use, with minimum maintenance required and the bicycles can be secured with both front and rear wheels as well as a central locking loop. The Semi Vertical Cycle Rack is manufactured from mild steel and then hot dipped galvanised as standard, making it a flexible and extremely durable cycle storage solution.

Columbus Canopy

Columbus Canopy is supported by a series of steel beams and is partially wall mounted, with PET roof slanting from the building and an additional roof extending outwards which diverts rainwater to integrated guttering within the legs.

Customisable options include;

- Powder coating in a range of RAL Colours
- Varying roof lengths
- Bespoke guttering options
- Leaf Guards

Advantages of this design include;

- Unique and modern look
- Reduced risk of water damage to the structure and the area below the canopy
- Creates a natural flow of air, providing ventilation and reducing the buildup of heat.
- Can be customised to fit a variety of spaces.
- Durable and long-lasting.

Ideal Canopy option for;

- Walkways
- Schools
- Shopping centres
- Healthcare institutions

All our Canopies are manufactured to BS EN 1090 Standards.

Shafton Walkway

The Shafton Walkway is a versatile freestanding barrel roof canopy with steel beam supports and roof frame that is clad as standard with multiwall polycarbonate. A low-maintenance and durable design to create connected walkways for protecting customers, employees, or pupils from the weather.

Customisable options include:

- Powder coating in a range of RAL colours
- Can be clad with UV-stable PET sheeting
- Bespoke sizes available on request
- Surface or subsurface mounting
- Guttering

Advantages of this design include:

- Barrel roof for water run-off
- Minimal design increases usable space beneath
- Does not require fixing to the building
- Low Maintenance

Ideal for:

- Walkways
- Waiting areas
- Entrance canopies

Our steel structures are manufactured to BS EN 1090 standards.

Moreton Canopy

The Moreton is a Gull Wing style canopy which is supported by a series of steel posts and beams, with PET roof extending outwards on both sides, creating a distinctive shape.

Customisable options include;

- Powder coating in a range of RAL Colours
- available with multiwall polycarbonate cladding
- Varying roof lengths
- Bespoke guttering options
- Leaf Guards

Advantages of this design include;

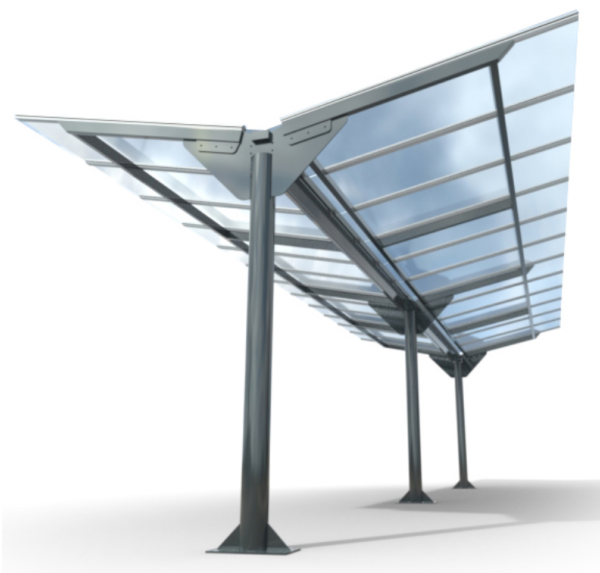

- Unique and modern look.
- Reduced risk of water damage to the structure and the area below the canopy.
- Creates a natural flow of air, providing ventilation and reducing the buildup of heat.
- Can be customised to fit a variety of spaces.
- Durable and long-lasting.

Ideal Canopy option for;

- Walkways
- Cycle Parking
- Schools
- Shopping centres
- Hospitals
- Outdoor Play Areas

All our Canopies are manufactured to BS EN 1090 Standards.

Moreland Canopy

The Moreland Canopy is a truly versatile wall mounted canopy and is available in standard modules from stock, or as a tailored unit to suit your requirements. It can be installed for a variety of applications including covered walkways, cycle parking and motorcycle parking. This canopy gives clear access and is ideal for situations where floor space is restricted.

Manufactured from a mild steel frame, hot dipped galvanised as standard and can be powder coated in a wide range of RAL or BS colours. The roof can be clad with UV stable PET Sheeting or multiwall polycarbonate,

Customisable options include:

- Powder coating in a range of RAL colours
- Bespoke sizes available on request
- Guttering

Advantages of this design include:

- Monopitch roof for water run-off
- Minimal design increases usable space beneath
- Extends usable outdoor space
- Low Maintenance

Stadium Canopy

The Stadium Canopy is a cantilevered freestanding steel structure that slopes to the rear to divert rainwater into the aluminium drainage system.

The name is derived from the 'œstadium' shaped corrugated steel roof. The design utilises below-ground fixings and a branching structure to secure the canopy in 8 points.

Customisable options include:

- Powder coating in a range of RAL colours
- Bespoke sizes available on request
- Green roof options

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Durable and Low Maintenance
- Increases usability and value of a space

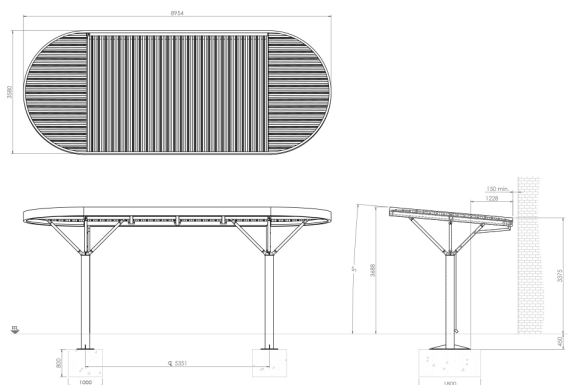

Ideal for:

- Business parks
- Schools/Universities
- Retail/Hospitality

Our steel structures are manufactured to BS EN 1090 standards.

St Marks Pergola

The St Marks Pergola is a free-standing canopy with robust steel pillars and hardwood timber crossbeams that filter direct sunlight and provide an ambient shaded environment for an array of uses such as walkways and outdoor seating areas.

Customisable options include:

- Choice of softwood or hardwood
- Powder coating in a range of RAL colours
- Bespoke sizes available on request

Coordinated accessories such as seating, tables and ashtrays

- Can be adapted to suit other uses such as enclosed cycle parking and bin storage

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Durable and Low Maintenance
- Increases usability and value of a space

Ideal for:

- Residential
- Roof Terraces
- Business parks
- Schools/Universities

Melford Doorway Canopy

The Melford Doorway canopy is a free-standing barrel roof cantilever structure designed to offer shelter at the entrance of buildings. The traditional-looking arched roof allows for rainwater to run off into integrated guttering and drainage through the legs.

Customisable options include:

- Powder coating in a range of RAL colours
- Roof can be clad with 10mm multiwall PET or UV stable, scratch-resistant plastisol
- Bespoke sizes available on request

Advantages of this design include:

- Does not require fixing to the building
- Can be designed to fit the space available
- Barrel roof for water run-off to integrated guttering

Ideal for:

- Entrances
- Business parks
- Schools/Universities
- Hospitals
- Retail/Hospitality

We recommend a 200-300mm gap between the building and the canopy to allow for natural movement.

All our canopies are manufactured to BS EN 1090 standards.

Large Recess Stainless Steel Bollard

This stylish root fixed bollard comes with a brushed satin finish, a 75mm recess, semi dome top. With a main body grade 304 stainless steel, or in grade 316 for more aggressive environments such as industrial or coastal areas, this is a popular member of the Bailey Streetscene catalogue of products.

It also comes with other options, such as being surface mounted, having a bright polish finish, with reflective tape added, or availability in other sizes -including bespoke ones.

Available in a range of sizes;

Heights: 1200mm / 1500mm Diameters: 76mm / 90mm / 101mm / 114mm / 127mm / 139mm / 168mm

H: 1200mm x Dia: 101mm

Single Groove Stainless Steel Bollard

The great thing about this choice of bollard is that you can order it to your requirements. Other sizes are readily available, including bespoke sizes, and that's not where the options end!

With a main body of grade 304 stainless steel, this is also available in grade 316 stainless steel for more aggressive environments such as industrial or coastal areas. It comes with a brushed satin finish with a 25mm recessed groove, semi dome top, and comes root fixed. It also come with the option of being surface mounted, with a bright polish finish, or including a 25mm band of reflective tape.

Available in a range of sizes;

Heights: 1200mm / 1500mm Diameters: 76mm / 90mm / 101mm / 114mm / 127mm / 139mm / 168mm

Anti Ram Semi Dome Top Stainless Steel Bollard

The Anti-Ram Semi Dome Top Stainless Steel Bollard consists of our standard stainless steel bollard with a 101 diameter galvanised mild steel inner reinforcement tube securely fastened within to give additional anti-ram benefits. The main body is manufactured from grade 304 or grade 316 stainless steel for more aggressive environments such as industrial or coastal areas.

This bollard has a brush satin finish and comes root fixed as standard, with either a semi dome top or a welded flat top.

Available in a range of sizes;

Heights: 1200mm / 1500mm Diameters: 101mm / 114mm / 127mm / 139mm / 168mm

H: 1200mm x Dia: 114mm

Protect Bollard

The Protect Bollard is tested to withstand impact from vehicles to IWA 14-1 standards. As standard the bollard is manufactured in a grade 304 grit brushed finished stainless-steel sleeve, with the option of either Flat top or fully welded dome top and 2 Sapele timber bumpers. Also available in galvanised and powder-coated steel.

This sleeve sits atop a "Protect Impact Core"™ that is hot dip galvanised to BS EN 1461:2009 as standard and cast in concrete at a total depth of only 250mm.

Multiplicity Illuminated Bollard

The Multiplicity LED Illuminated Bollard shares the graceful visual vocabulary of the collection in which robust verticals end in winged forms. But as well as being a stylish, modern bollard, it's really fit-for-purpose too.

Powered lights can be specified with type 4 or type 5 light distributions to provide desired light patterns and illuminance of which are achieved by variations in the number and placement of LED arrays within the luminaire.

FGP Illuminated Bollard

If you want your bollards to add a touch of class to your outdoor space

The FGP Illuminated Bollard has an organic form created by three stems that rise from the connection of the base. The soft, triangular head holds LEDs in triangular arrays that cast illumination between the verticals in a clean footprint.

LED light sources are energy efficient and castings are powder coated, making this a stylish, contemporary and popular product which is ideal for any number of outdoor environments.
