

BOLLARDS & BARRIERS

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

Large Recess Stainless Steel Bollard

This stylish root fixed bollard comes with a brushed satin finish, a 75mm recess, semi dome top. With a main body grade 304 stainless steel, or in grade 316 for more aggressive environments such as industrial or coastal areas, this is a popular member of the Bailey Streetscene catalogue of products.

It also comes with other options, such as being surface mounted, having a bright polish finish, with reflective tape added, or availability in other sizes -including bespoke ones.

Available in a range of sizes;

Heights: 1200mm / 1500mm Diameters: 76mm / 90mm / 101mm / 114mm / 127mm / 139mm / 168mm

Protect Bollard

The Protect Bollard is tested to withstand impact from vehicles to IWA 14-1 standards. As standard the bollard is manufactured in a grade 304 grit brushed finished stainless-steel sleeve, with the option of either Flat top or fully welded dome top and 2 Sapele timber bumpers. Also available in galvanised and powder-coated steel.

This sleeve sits atop a "Protect Impact Core"™ that is hot dip galvanised to BS EN 1461:2009 as standard and cast in concrete at a total depth of only 250mm.

Multiplicity Illuminated Bollard

The Multiplicity LED Illuminated Bollard shares the graceful visual vocabulary of the collection in which robust verticals end in winged forms. But as well as being a stylish, modern bollard, it's really fit-for-purpose too.

Powered lights can be specified with type 4 or type 5 light distributions to provide desired light patterns and illuminance of which are achieved by variations in the number and placement of LED arrays within the luminaire.

FGP Illuminated Bollard

If you want your bollards to add a touch of class to your outdoor space

The FGP Illuminated Bollard has an organic form created by three stems that rise from the connection of the base. The soft, triangular head holds LEDs in triangular arrays that cast illumination between the verticals in a clean footprint.

LED light sources are energy efficient and castings are powder coated, making this a stylish, contemporary and popular product which is ideal for any number of outdoor environments.

Lockable Fold Down Post

The fold down post is an extremely popular and inexpensive access control product used for restricting access to driveways and car parking spaces. Base plate secured, the post is 60mm diameter with a total height in the raised position 620mm.

Coming in a striking yellow colour, the cast aluminium base plate is secured by 3No. M12 anchor bolts (not supplied), whilst the post can be locked in the upright or lowered position and is supplied with 2 keys for the cylindrical push button lock. Multiple orders can be supplied keyed alike or keyed to differ. Ground clearance is 102mm.

Heavy Duty Removable Bollard

If you're looking for a tough, durable and hard-wearing bollard then the Heavy Duty Removable Bollard is a great choice. Superb for restricting access and preventing unauthorised entry of vehicles, the bollard locates into a socket embedded in concrete.

Available in three sizes, this bollard is locked in position by use of the socket flap and a padlock (not supplied). When the bollard is removed the ground socket flap can be padlocked in the closed position keeping the socket free from debris.

The large version is fitted with side lifting handles to assist removal of the bollard. All three versions have amber reflectors on two sides. Standard colour black and white (other colours available on request).

Removable Stainless Steel Bollard

This bollard stands 900mm above ground, and its main body is manufactured from grade 304 or 316 stainless steel for more aggressive environments such as industrial or coastal areas. It has a brushed satin finish, with the possibility of a bright polish finish, has a semi-dome top, and is root fixed.

Itâ€™s a smart, contemporary option for ensuring that the edge of a structure, car park, or space is easily and properly identified, or for separating areas.

Available in a range of sizes;

- Heights: 900mm / 1000mm / 1200mm / 1500mm

- Diameters: 76mm / 90mm / 101mm / 114mm / 127mm / 139mm / 168mm
