

PLANTERS & TREE PROTECTION

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

Roosevelt Planter

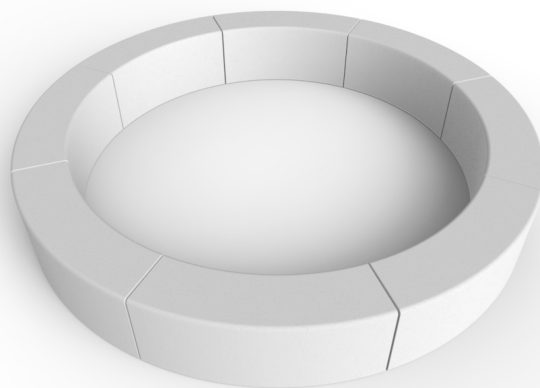

The Roosevelt Planter teams up brilliantly with the bench of the same name and is manufactured from standard grey precast concrete with an acid etch finish. Adapt

The Adapt Modular Concrete Collection

is an exclusive range of integrated concrete seating and planter elements designed to unlock limitless possibilities in urban furniture composition and spatial arrangement.

With a variety of modular shapes and size options, Adapt offers a low-maintenance, highly durable alternative to traditional street furniture. Its substantial mass not only ensures stability but can also contribute to building and pedestrian protection, allowing placement to serve both aesthetic and functional purposes.

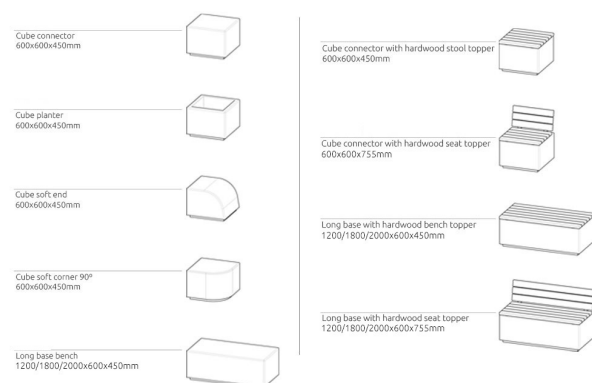

A wide palette of colours and material finishes for the concrete substrate offers a further layer of customisation, enabling each installation to harmonise with its unique architectural and environmental context.

Complementing this versatility, a curated selection of timbers, fixtures, and accessories allows landscape designers to create tailored solutions that reimagine and repurpose urban spaces for a diverse range of everyday uses.

Adapt

strikes the perfect balance between creative flexibility and robust, practical performance—empowering designers to transform public spaces with confidence and style.

Inspira Linear

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Linear is a collection of straight walls and angled corners, designed for geometrically-shaped installations

(squares, rectangles, parallelograms, triangles etc.)

Linear can also function as a low-cost alternative to complex curved schemes, using its variety of angled connectors to

match design intent.

Manufactured to suit customer requirements

Inspira Form

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Form includes all the rectilinear components of Linear with the addition of curved wall and corner sections, allowing more organically shaped installations (circles, lozenges, waves etc.)

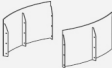

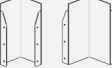

Components of Form have a thicker wall to allow its slim profile and minimal visual impact at the top edge.

As standard Inspira Form does not have a return edge. If required please contact us to discuss.Â

Manufactured to suit customer requirements

Inspira Protect Planter

Inspira Protect Planters has been tested to IWA 14-1 standards to withstand impact from both 1.5 and 2.5 tonne vehicles.

Inspira Protect features an impact resistant fully-welded steel support frame. Sub frame and cladding panels are all hot-dip galvanised to BS EN 1461:2009 and powder coated to site specification. The planter sits at top a slab foundation of 150mm. The modular design can be scaled up where needed. The 2.5 Tonne version features a higher axel impact point with a height of 600mm.

Cubik

Collection of modular cube-shaped elements that can be joined together, composed of folded steel sheet bases, to which seats are mechanically attached.

The seats are available in several versions: steel, hardwood or thermo-treated pine and HPL.

A planter in steel and a table with an HPL top complete the collection.

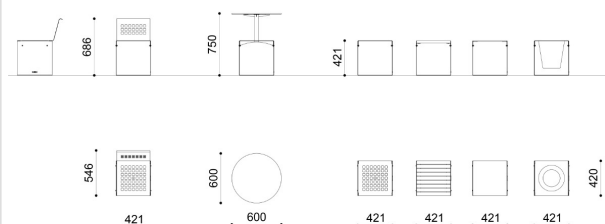

Each base is prepared for lateral attachment with the other elements of the CUBIK collection.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

Prepared with holes for ground fixing through mechanical dowels (not included) for outdoor installation or in simple support for indoor installation.
