

# PLANTERS & TREE PROTECTION

## **We are far from just a street furniture supplier**

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

## **We are Bailey Streetscene**

## Belgravia Planter

The Belgravia planter is a self-contained planting unit that is available in a range of sizes, materials, and finishes. Units can be aligned to create enclosed and protected spaces surrounded by planting.

Planters bring nature and colour to urban environments as well as offering pedestrian segregation from the highway.

Requires minimal maintenance, available with removable liners and drainage holes, and powder coated in huge range of ral colours.

Manufactured to suit customer requirements

## Inspira Protect Planter

Inspira Protect Planters has been tested to IWA 14-1 standards to withstand impact from both 1.5 and 2.5 tonne vehicles.

Inspira Protect features an impact resistant fully-welded steel support frame. Sub frame and cladding panels are all hot-dip galvanised to BS EN 1461:2009 and powder coated to site specification. The planter sits atop a slab foundation of 150mm. The modular design can be scaled up where needed. The 2.5 Tonne version features a higher axel impact point with a height of 600mm.

### DIMS:

Above ground - (standard unit) H: 450/600mm x L: 1500 x W: 1000mm

### MATERIALS:

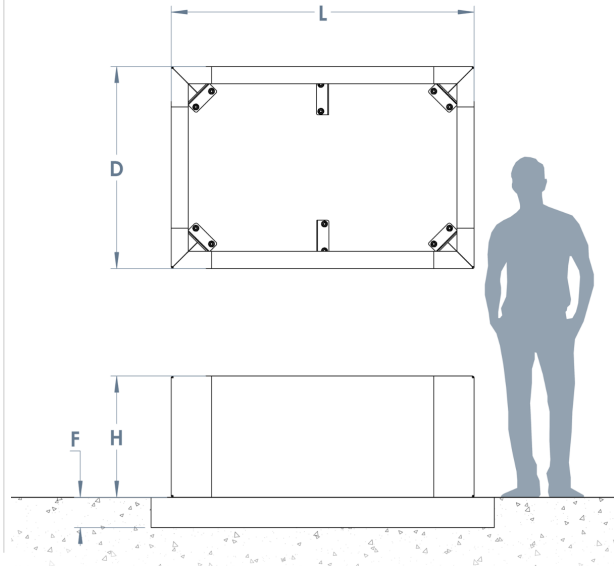

Galvanised & Powder-Coated Steel

### IWA 14-1:2013 TEST RATING: A

H: 450mm - V/1500[M1]/48/90:0.0

H: 600mm - V/2500[N1G]/48/90:0.0

### Colours

Available in a huge range of **RAL** colours.

Our most popular colours are;

## Cubik

Collection of modular cube-shaped elements that can be joined together, composed of folded steel sheet bases, to which seats are mechanically attached.

The seats are available in several versions: steel, hardwood or thermo-treated pine and HPL.

A planter in steel and a table with an HPL top complete the collection.

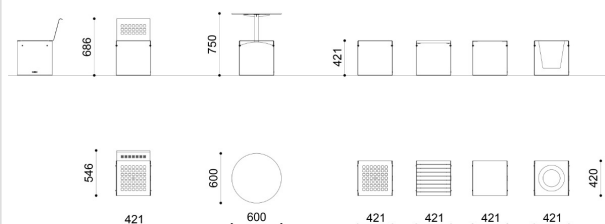

Each base is prepared for lateral attachment with the other elements of the CUBIK collection.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

Prepared with holes for ground fixing through mechanical dowels (not included) for outdoor installation or in simple support for indoor installation.

**L: 420mm x W: 421mm x H: 421mm**

## Inspira Linear

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Linear is a collection of straight walls and angled corners, designed for geometrically-shaped installations

(squares, rectangles, parallelograms, triangles etc.)

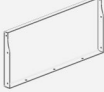

Linear can also function as a low-cost alternative to complex curved schemes, using its variety of angled connectors to

match design intent.

**Manufactured to suit customer requirements**

### INSPIRA COMPONENTS

## Inspira Form

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Form includes all the rectilinear components of Linear with the addition of curved wall and corner sections, allowing more organically shaped installations (circles, lozenges, waves etc.)

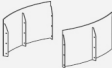

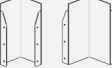

Components of Form have a thicker wall to allow its slim profile and minimal visual impact at the top edge.

As standard Inspira Form does not have a return edge. If required please contact us to discuss.Â

Manufactured to suit customer requirements

### INSPIRA COMPONENTS

#### Form

		Lengths(l)/radii(r) (mm)	Heights (mm)	Angles (°)

## Materials, Finishes & Options

## Aris

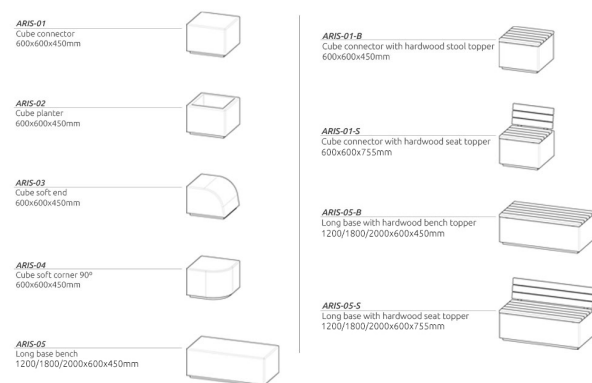

The Aris Modular Concrete collection is an exclusive range of unified concrete seating & planter elements that merge to form an infinite array of possibilities within urban furniture composition and arrangement.

The Modular shapes, in an array of size options, form the basis of this low maintenance and resilient alternative to traditional street furniture. Their weight and mass also allow their placement to be considered in terms of building & pedestrian protection.

A broad palette of colours and material finishes for the main concrete substrate add an additional layer of customisation, providing the ability to expertly match and complement the distinct context of each unique project setting.

Finally, a selection of timbers, fixtures and other accessories culminate in ensuring the Aris range offers landscape designers a flexible and expressive toolkit to reshape and re-purpose urban space for a variety of practical everyday uses.

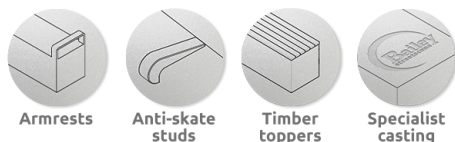

The perfect blend of creative freedom and solid everyday function! See technical drawing for guide sizes
