

SEATING

We are far from just a street furniture supplier

As designers, manufacturers and installers of street furniture, canopies and shelters, we pride ourselves on being the go-to experts that can offer you more.

We are determined to ensure that your outdoor space is vibrant, practical, aesthetically pleasing and functional, whilst offering you cost-effective solutions to your outdoor space planning.

As a company, we like to change the way people interact with the outdoor space, and how they view the landscape too.

We are determined to help organisations create outdoor environments that people enjoy walking through, interacting with or simply using it as a stopping and gathering point.

Our resources, flexibility and expertise often enables us to deliver more performance than your budget specifies and we will always go that extra mile for our clients when it comes to providing excellent customer service.

We are proud to have had over three decades of experience and expertise in our sector, allowing us to assist your organisation in choosing the right products for your individual scheme.

We are Bailey Streetscene

Harbour Cube

The Harbour Cube is a cube-shaped bench that can be used as a bollard. Manufactured from standard precast concrete with an acid etch finish, for a solid, functional piece of street furniture that is suitable for any outdoor environment, and one that can also be used as a bollard, then the Harbour Cube is an excellent option.

Please note that all concrete products are sealed prior to dispatch.

Colours available: Light Grey. Buff. White. Black.

Finishes available: Light Exposed Aggregate. Fully Polished. Polished Top.

Design: Flush to floor, or Shadow Gap.Â

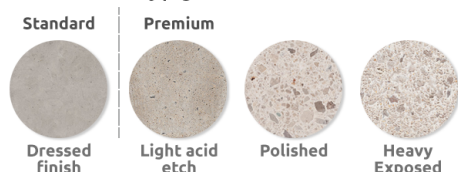

L: 450mm x D: 450mm x H: 450mm x Weight: 216kg

Arrowhead

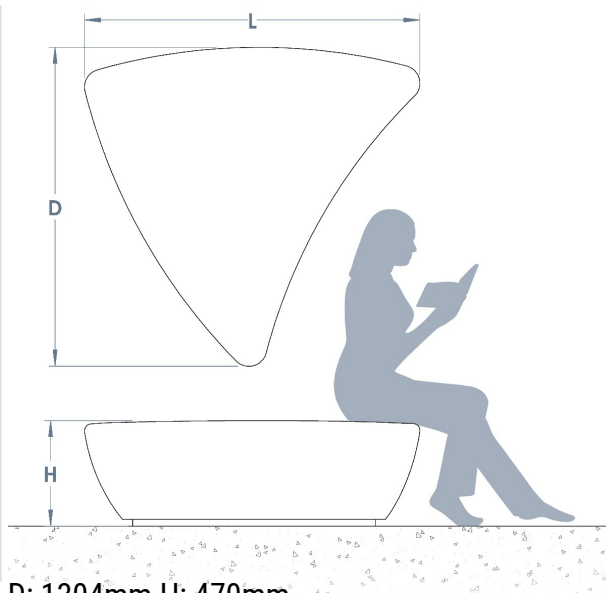

Arrowhead is an exclusive range of unified concrete seating and planter elements that merge to form an infinite array of possibilities within urban furniture composition and arrangement. In short, these look great, are resilient, and are an extremely low-maintenance outdoor furniture alternative.

The curvaceous monolith arrowhead shape forms the basis of this low-maintenance and resilient alternative to traditional street furniture. Their weight and mass also allow their placement to be considered in terms of building pedestrian protection from vehicles.

A broad palette of colours and material finishes are available as well as a selection of timbers, fixtures and other accessories culminate in ensuring the Arrowhead range offers landscape designers a flexible and expressive toolkit to reshape and re-purpose urban space for a variety of practical everyday uses. The perfect blend of creative freedom and solid everyday function.

Woking Seat

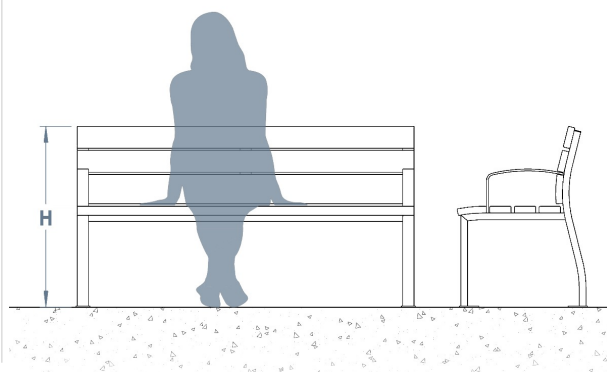

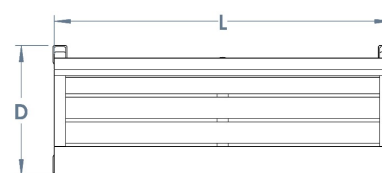

Ask yourself what you want from your outdoor seating: We'd guess that stylish, versatile and durable would be amongst your first answers. That's exactly what the Woking Seat is. It's absolutely ideal for busy public spaces such as town centres, schools and colleges, and is also available in a double-sided version too.

With a frame that is galvanised and powder coated to any RAL colour of your choice, and timber slats in hardwood or softwood, this is a great addition to any area in which it is placed. It is also available with armrests, and with fixing bolts concealed within the legs for ground fixing, what you have here is a well-balanced, modern seat.

The Woking Seat is also available as a double sided bench.

Adapt

The Adapt Modular Concrete Collection

is an exclusive range of integrated concrete seating and planter elements designed to unlock limitless possibilities in urban furniture composition and spatial arrangement.

With a variety of modular shapes and size options, Adapt offers a low-maintenance, highly durable alternative to traditional street furniture. Its substantial mass not only ensures stability but can also contribute to building and pedestrian protection, allowing placement to serve both aesthetic and functional purposes.

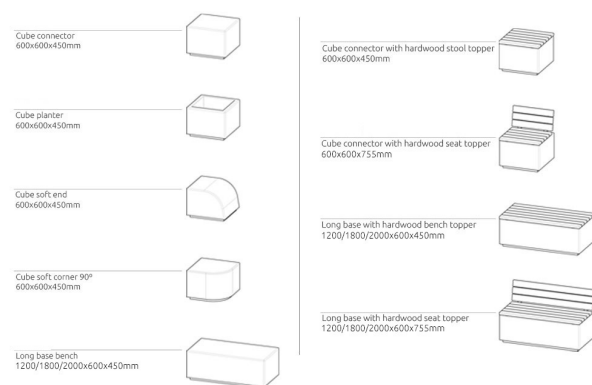

A wide palette of colours and material finishes for the concrete substrate offers a further layer of customisation, enabling each installation to harmonise with its unique architectural and environmental context.

Complementing this versatility, a curated selection of timbers, fixtures, and accessories allows landscape designers to create tailored solutions that reimagine and repurpose urban spaces for a diverse range of everyday uses.

Adapt

strikes the perfect balance between creative flexibility and robust, practical performance—empowering designers to transform public spaces with confidence and style.

Tombola Bench

A monolithic design featuring large hardwood beams resting on steel columns with optional integrated lighting. The lengthy Hardwood beams form an attractive and consistent bench, that when combined with underlighting becomes a focal point in urban areas.

The extremely durable timbers are specially sourced and can be manufactured to any length required.

The industrial steel supports can be powder coated in a range of RAL colours to complement your scheme.

The bench can be secured in place using surface or below surface fixings.

Also available is the Tombola Table featuring the same design principles. When combined with the table it creates a unified communal dining and social space.

The Linares Seating is a simple yet striking seating solution. Manufactured from a welded steel frame construction, clad with timber slats and available in either hardwood or softwood variations.

Standard Dimensions:

- Stool: L: 1090mm x D: 1200mm x H: 510mm
- Bench: L: 2004mm x D: 450mm x H: 510mm
- Seat: L: 2040mm x D: 800mm x H: 800mm

Customisable options include:

- Surface mounted or root fixed
- Backrest
- Anti-Skate studs
- Choice of timbers

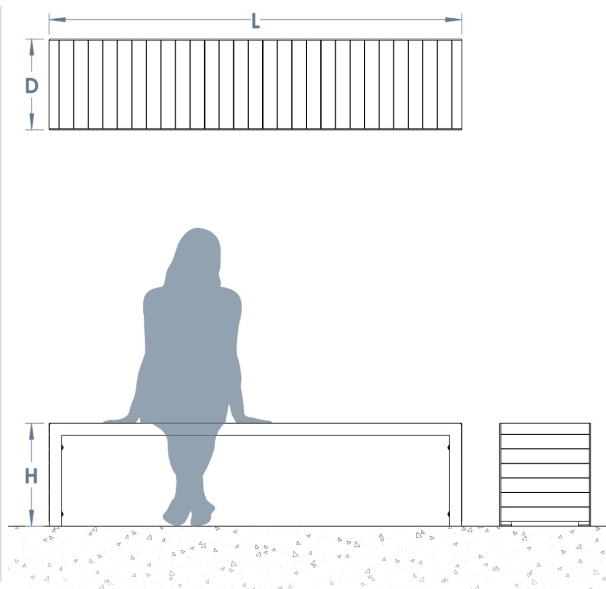

Advantages of this design include:

- Stylish and classical look
- Consistent look with matching bench and seat
- Flexibility with a full or partial back rest
- Part of a coordinated collection of street furniture

Seating is ideal for:

- Universities
- Public Spaces

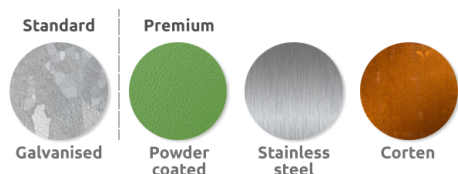

L: 2040mm x D: 800mm x H: 800mm

Imperial Seating

Curved or straight? The choice is yours. But the key word there is 'choice'. That's what this stylish seat gives you. The Imperial Seat is manufactured from curved timber slats complete with timber frame, armrests and backrest, and can be modified to suit your requirements.

Available as a curved or straight seat, this is available with hardwood or softwood timber slats and is surface mounted or root fixed. An attractive, contemporary seat for any outdoor environment.

Customisable options include:

- Backrest
- Flexibility of design with straight or curved seating
- Anti-Skate studs
- Choice of timbers

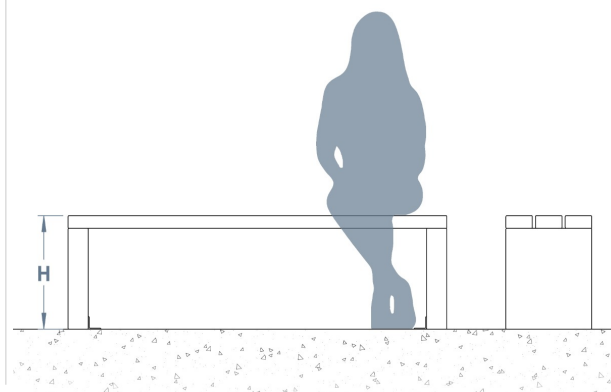

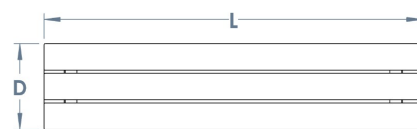

Advantages of this design include:

- Surface mounted for easy installation
- Consistent look with matching bench and seat

Seating is ideal for:

- Schools / Universities
- Public Spaces

Bench/Seat

Hyde Seating

The beauty of the Hyde Range is its flexibility. This is a versatile and durable bench that can be adapted to the various requirements of clients. Simple and robust in design, it is available as a straight or curved bench, as well as a full 360 degree option.

This is a surface mounted bench, manufactured from treated timber slats on galvanised, powder coated 5mm mild steel box feet. The Hyde bench can be modified to suit user requirements making it a stunningly adaptable seating solution.

Customisable options include:

- Backrest
- Flexibility of design with straight, curved and full circle seating
- Anti-Skate studs
- Choice of timbers
- Powder coating in any RAL colour

Advantages of this design include:

- Surface mounted for easy installation
- Consistent look with matching bench and seat

Seating is ideal for:

- Residential
- Schools
- Town centres

Holgate Seating

The Holgate Bench is part of the two-piece Holgate street furniture range and really complements the Holgate Picnic Set to create an attractive outdoor space - ideally suited to public parks and educational establishments, although it can be used in a variety of outdoor public spaces.

The Holgate Bench is manufactured from 5mm mild steel and then hot dipped galvanised to BS EN ISO 1461:2009. Clad in timber slats, treated with an external stain to increase the lifespan of the timbers, the bench is surface mounted and can be powder coated to most BS or RAL colours.

Customisable options include:

- Backrest
- Anti-Skate studs
- Choice of timbers
- Powder coating in any RAL colour

Advantages of this design include:

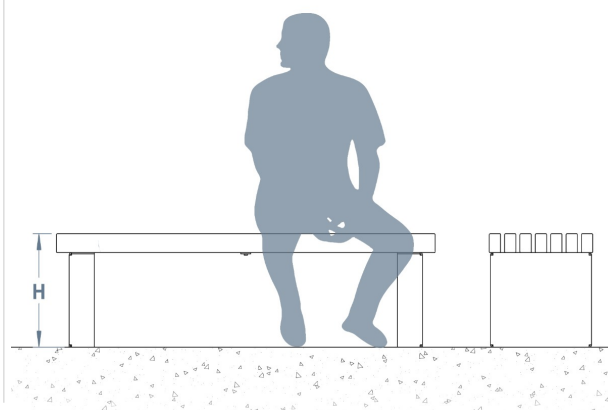

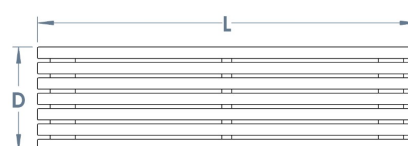

- Surface mounted for easy installation
- Consistent look with matching bench and seat

Seating is ideal for:

- Residential
- Schools
- Town centres
- Retail parks

Cubik

Collection of modular cube-shaped elements that can be joined together, composed of folded steel sheet bases, to which seats are mechanically attached.

The seats are available in several versions: steel, hardwood or thermo-treated pine and HPL.

A planter in steel and a table with an HPL top complete the collection.

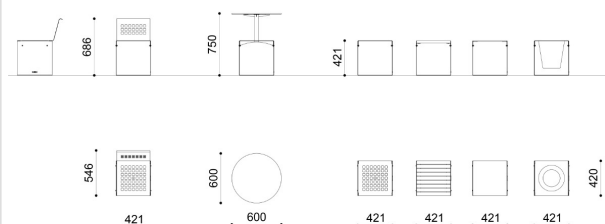

Each base is prepared for lateral attachment with the other elements of the CUBIK collection.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

Prepared with holes for ground fixing through mechanical dowels (not included) for outdoor installation or in simple support for indoor installation.

Fola Seat

The Fola Seat is a bench designed with two steel sheet supports and a seat made of either hardwood or thermo-treated pine slats. The structure is supported by a tubular steel frame and features folded steel sheet ribs. This versatile bench offers a variety of options, including the choice of a backrest made of a wooden plank and steel sheet supports. Users can opt for a configuration with or without a backrest, and there are additional choices for small steel tables or individual steel armrests.

The durability of Fola is ensured by the galvanisation of all metal parts and a coating with thermosetting polyester powder. For added strength and resilience, all fixings are crafted from AISI304 stainless steel. The design also incorporates prepared holes for ground fixing using mechanical dowels (not included). This feature facilitates stable installation, making the Fola Seat suitable for outdoor use. With its robust construction and customisable features, the Fola Seat provides a versatile and long-lasting seating solution.

Fola XL Seat

The Fola XL Seat is a larger version of the F3la Seat. The bench is designed with two steel sheet supports and a seat made of either hardwood or thermo-treated pine slats. The structure is supported by a tubular steel frame and features folded steel sheet ribs. This versatile bench offers a variety of options, including the choice of a backrest made of a wooden plank and steel sheet supports. Users can opt for a configuration with or without a backrest, and there are additional choices for small steel tables or individual steel armrests.

The durability of the Fola XL Seat is ensured by the galvanisation of all metal parts and a coating with thermosetting polyester powder. For added strength and resilience, all fixings are crafted from AISI304 stainless steel. The design also incorporates prepared holes for ground fixing using mechanical dowels (not included). This feature facilitates stable installation, making Fola XL suitable for outdoor use. With its robust construction and customisable features, the Fola XL Seat provides a versatile and long-lasting seating solution.

Casteo Seat

The Casteo Seat is a versatile bench that comes in different configurations, with or without a backrest and armrests. It features a sturdy design with two tubular steel supports and a folded steel sheet frame for the seat. The seat can be equipped with optional slats made of hardwood, thermo-treated pine, or WPC, while the backrest and armrests are constructed from folded steel.

For durability and protection against the elements, all metal components, including supports, seat frame, backrest, and armrests, undergo a galvanisation process. Additionally, a coating of thermosetting polyester powder is applied to enhance both the aesthetic appeal and resilience of the bench.

To ensure longevity and resistance to corrosion, all fasteners utilised in the bench are made of AISI304 stainless steel. The bench is designed for secure installation with prepared holes for ground fixing through included threaded bars. This feature makes the Casteo Seat suitable for both indoor and outdoor use, providing stability and preventing potential theft or vandalism.

Noale Seat

The Noale Seat is a bench available in configurations with or without a backrest and armrest, featuring a tubular steel structure with steel sheet supports and two perforated plates for secure ground fixation. Both the seat and backrest are constructed from steel rods.

To enhance durability and protect against corrosion, all metal components, including the structure, supports, seat, and backrest, undergo galvanisation and are coated with thermosetting polyester powder. The fixings used are crafted from AISI304 stainless steel.

The bench is prepared with pre-drilled holes for ground fixing, although mechanical dowels for this purpose are not included and would need to be sourced separately. This design ensures stability and allows for versatile placement in various indoor and outdoor settings.

Noale Doppia Seat

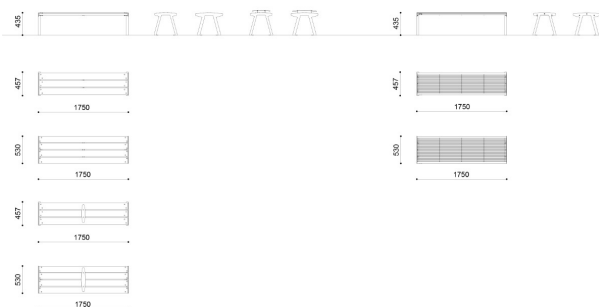

The Noale Doppia Seat is a double-sided bench with the option of a backrest and armrests. It features tubular steel supports, two seats, and one backrest, all equipped with slats made of hardwood or thermo-treated pine.

The seat comprises three slats, while the backrest consists of two slats and a shaped central slat, all crafted from hardwood or thermo-treated pine.

To ensure durability and resistance to corrosion, all metal components, including supports, seats, and backrest, undergo galvanisation and receive a coating of thermosetting polyester powder. The fixings are made from AISI304 stainless steel.

The bench is designed with pre-drilled holes for ground fixing, though mechanical dowels for this purpose are not included and should be procured separately. This thoughtful design allows for stable installation and makes the Noale Doppia Seat suitable for various indoor and outdoor settings.

Bojon Lounger

The Bojon Lounger is a chaise longue crafted from hardwood or thermo-treated pine, featuring steel sheet sides and robust solid round steel supports. It is offered in single, double, or armchair versions.

To ensure durability and corrosion resistance, all metal components, including sides and supports, undergo galvanisation and are coated with thermosetting polyester powder. The fixings used are made of AISI304 stainless steel.

For secure installation, the lounger is designed with pre-drilled holes to facilitate ground fixing, although mechanical dowels for this purpose are not included and need to be obtained separately. This thoughtful design ensures stability and makes the Bojon Lounger suitable for a variety of settings, both indoors and outdoors.

2X1 Parklet

Collection of parklet modules consisting of an HPC (High Performance Concrete) platform with or without a rectangular tubular barrier with five round steels, or with two round steels and a rectangular planter.

A trapezoid shaped HPL top is fixed to the upper part of the barrier.

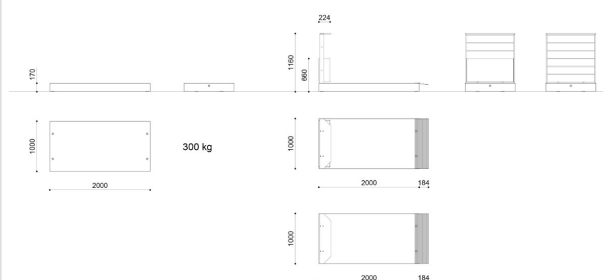

On the opposite side of the barrier, two interlocking aluminium extrusions compensate for the difference of the pavement from a minimum of 100 mm to a maximum of 245 mm.

All metal parts are galvanised and coated with thermosetting polyester powder.

All fixings are in AISI304 stainless steel.

The self-supporting platform is equipped with feet adjustable from above with hexagonal insert sleeve.

L: 2000mm x W: 1000mm x H: 170mm
