

Telescopic Mole Post

The post has a hot dipped galvanised finish and locates into a socket embedded in concrete. The post stands 610mm above ground with a 100mm box section, providing effective security for garage forecourts, driveways, car parks as well being extremely useful as a variety of other applications, such as cordoning off areas.

This is a cost-effective, popular product and is designed to retract into the ground when not in use and is manually raised into its protecting position and secured by means of a padlock (not supplied).

H:785mm x D: 100mm x Weight: 23Kgs
