

Hyde Seat

If you want versatility and durability, then the Hyde Seat will be right up your street. Hopefully, quite literally! Its greatest strength is its adaptability as it can be developed to suit the requirements of our clients. Simple and robust in design, it is available as a straight or curved seat as well as a full 360 degree tree seat.

The Hyde Seat is manufactured from treated timber slats on galvanised, powder coated 5mm mild steel box feet, and is surface mounted.

Manufactured to suit customer requirements
