

XL Bromley Compound

If you are looking for secure and sheltered parking for up to 200 bicycles the XL Bromley Cycle Compound is a great option. The size makes it perfect for schools, leisure centres and business areas – indeed, any outside environment where there is a high number of cyclists.

Featuring 2 pad-lockable gates at the front of the compound for easy access (padlocks not provided), it has a vandal resistant steel frame which is hot dipped galvanised to BS EN ISO 1461:2009 as standard, and can be polyester powder-coated in a range of RAL colours and clad in clear 4mm PET plastic.

UV stable, scratch resistant, and typical light transmittance is 80-88% - this is a modern classic cycle compound.

L: 20360mm x D: 11000mm x H: 2685mm
