

Free Standing Safety Guard Rail

Strong and safe with innovative design, our Free Standing Safety Guard Rail does exactly what its name implies. Light yet stable, it has been designed for maximum safety and durability, with a 35mm steel frame, a 1.5mm gauge, and less than 11cm between each bar for increased security.

With four rounded corners and tapered feet for added stability, this is an excellent lightweight barrier option. Finish: galvanised or galvanised then powder coated finish in our RAL colours.

H : 1090mm x L : 2000mm x D : 400mm
