

## FGP Seat

If you want a simple yet relaxed and welcoming place to sit then you'll want to have a look at The FGP Seat. It's a simple timber and cast aluminium frame seat but its beauty is that the height is designed to allow a sitter to rest an arm on it, making it a really pleasant place to sit.

Available in single and double lengths, the single seat has a frame at each end, while the double seat has a frame at each end and one in the centre too. The timber slats are more than an inch thick giving extra durability, whilst the front slat is elegantly detailed to curve around the seat frame. Cast aluminium parts have an anodised finish, and it's an integral part of our new FGP range which gives a coordinated look to any outdoor space.

L: 1778mm x D: 715mm x H: 770mm
