

Adapt

The Adapt Modular Concrete Collection

is an exclusive range of integrated concrete seating and planter elements designed to unlock limitless possibilities in urban furniture composition and spatial arrangement.

With a variety of modular shapes and size options, Adapt offers a low-maintenance, highly durable alternative to traditional street furniture. Its substantial mass not only ensures stability but can also contribute to building and pedestrian protection, allowing placement to serve both aesthetic and functional purposes.

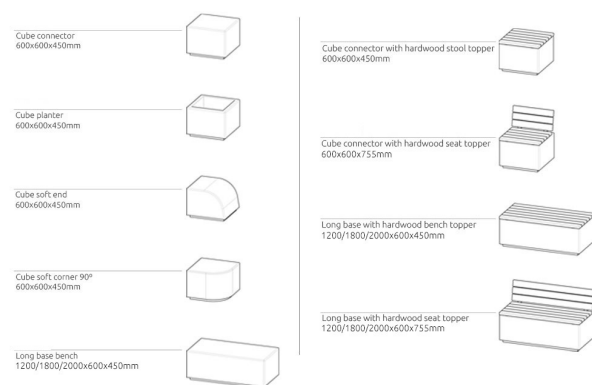

A wide palette of colours and material finishes for the concrete substrate offers a further layer of customisation, enabling each installation to harmonise with its unique architectural and environmental context.

Complementing this versatility, a curated selection of timbers, fixtures, and accessories allows landscape designers to create tailored solutions that reimagine and repurpose urban spaces for a diverse range of everyday uses.

Adapt

strikes the perfect balance between creative flexibility and robust, practical performance—empowering designers to transform public spaces with confidence and style.
