

Sanitisation Point - Colombo

Sanitisation Point is a practical and elegant solution suitable for indoor use.

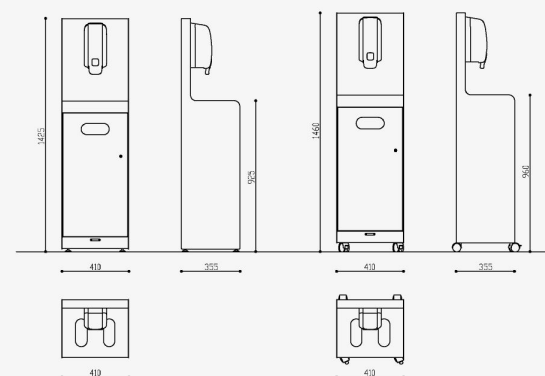

It is designed to be both a hand sanitation station, and a distribution point for disposable gloves, masks, or wipes.

It is simple and intuitive to use, and specific decals can be applied for a visual indication.

The system also includes a bin with a steel inner liner, to ease the collection and disposal of waste hygienically.

Pre-drilled holes on the front side means the station can be equipped with a battery powered automatic dispenser of hand-sanitiser or with a stainless steel universal bottle holder.

H: 1437mm x L: 408mm x D: 356mm | Capacity 60L | Weight 28kg
