

Inspira Form

Inspira is a flexible, modular retaining wall system, perfect for creating raised planting schemes in any location.

The ease of installation makes Inspira a quick and cost-effective addition to street, courtyard and roof terrace developments.

Inspira is available in a wide variety of materials, finishes and sizes to meet the requirements of any site.

Inspira Form includes all the rectilinear components of Linear with the addition of curved wall and corner sections, allowing more organically shaped installations (circles, lozenges, waves etc.)

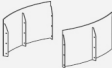

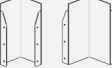

Components of Form have a thicker wall to allow its slim profile and minimal visual impact at the top edge.

As standard Inspira Form does not have a return edge. If required please contact us to discuss.Â

Manufactured to suit customer requirements

INSPIRA COMPONENTS

Form

		Lengths(l)/radii(r) (mm)	Heights (mm)	Angles (°)
