

Ascot Triple Recycling Unit

The Ascot Triple Recycling Unit utilises the principal design of our Ascot Litter Bin featuring a powder coated frame with a hardwood fronted door with laser cut lettering to identify its waste type. The bin units stand together in rows of 3 to divide waste up appropriately.

Each unit features a 50L galvanised liner and an accessible door with tri-key lock to ensure security as well as hassle-free waste removal. The design features reduced capacity liner in order to allow for internal space for scent diffusers.

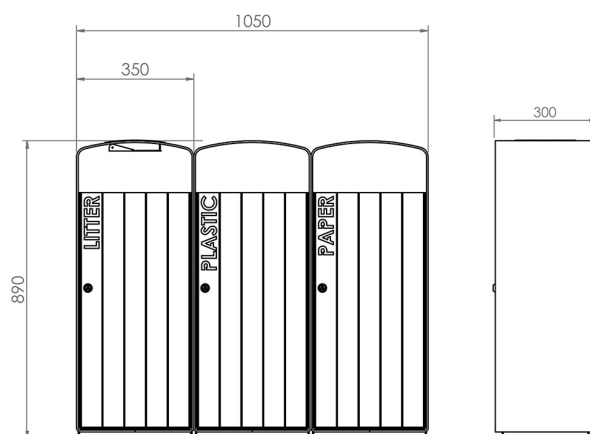

A Stainless-Steel cigarette stubbing plate and tray is featured on the general waste unit which empties safely into liner from inside.

Surface mounted

Supplied as 3 bin units for assembly during installation
