

Noale Doppia Seat

The Noale Doppia Seat is a double-sided bench with the option of a backrest and armrests. It features tubular steel supports, two seats, and one backrest, all equipped with slats made of hardwood or thermo-treated pine.

The seat comprises three slats, while the backrest consists of two slats and a shaped central slat, all crafted from hardwood or thermo-treated pine.

To ensure durability and resistance to corrosion, all metal components, including supports, seats, and backrest, undergo galvanisation and receive a coating of thermosetting polyester powder. The fixings are made from AISI304 stainless steel.

The bench is designed with pre-drilled holes for ground fixing, though mechanical dowels for this purpose are not included and should be procured separately. This thoughtful design allows for stable installation and makes the Noale Doppia Seat suitable for various indoor and outdoor settings.

L: 1750mm x W: 1100mm x H: 812mm / Seat H: 443mm
